

## MUNICIPAL WORKER SAFETY CERTIFICATE REGISTRATION FORM

This new certificate program provides municipal workers with training on key elements of OH&S in a public works environment.

The program is offered in a convenient three-day format that can be scheduled consecutively, if desired. Students could receive up to 2.4 EOCP CEU's upon program completion. Credit may be given for BCMSA courses taken prior to the program start date.

Participants in the program must complete  
all courses within a three year period.
